RAVEFUND

POOL. VOTE. RAVE.

Community-funded events with on-chain transparency and trustless ticketing on Solana.

RF

THE PROBLEM

COMMUNITY EVENTS RUN ON BLIND TRUST

NO TRANSPARENCY

Someone collects money via PayPal. You hope it works out.

NO GOVERNANCE

Zero say in lineup, venue, or theme. Organizer decides all.

NO SAFETY NET

If the organizer ghosts, your money is gone.

The culture that's supposed to be community-driven... isn't.

HOW IT WORKS

FOUR STEPS TO A COMMUNITY-FUNDED EVENT

01 FUND

Community creates a vault with a target. Anyone contributes USDC to program-controlled escrow.

→ 02 VOTE

Contributors vote on creative decisions: headliner, venue, theme. Quadratic weighted.

→ 03 EXECUTE

Organizer manages day-to-day spending. Every withdrawal logged on-chain with memo.

→ 04 RAVE

Contributors receive cNFT tickets with perks. Or auto-refund if target isn't met.

TRUST MODEL

NOT FULLY TRUSTLESS. THIS IS INTENTIONAL.

✅ TRUSTLESS

Smart contract enforced — no human override

- Fund collection & escrow (PDA vault)
- Auto-refund on failed target
- NFT ticket distribution
- Governance votes (quadratic)
- Spending log transparency

🤝 TRUSTED TO ORGANIZER

Intentionally permissioned for speed

- Day-to-day spending execution
- Vendor payments (cash, last-minute)
- Event delivery & logistics

Governance on every €50 spend would kill the event. Trust is auditable.

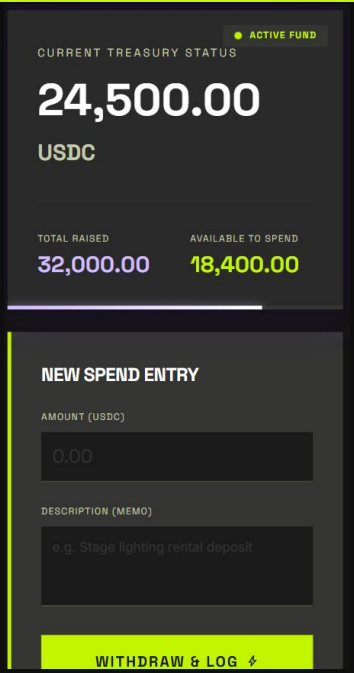
ORGANIZER TOOLS



ORGANIZER STUDIO

ORGANIZER PROFILE

Transparent treasury

with on-chain spending log. Every withdrawal has a memo.

Reputation system

built from verified history. Trust score visible to all.

WHY SOLANA

BUILT FOR SPEED, SCALE, AND MICRO-STAKES

<$0.01

TRANSACTION COST

Micro-contributions viable. 5 USDC isn't eaten by gas.

<1s

FINALITY

Voting rounds resolve in seconds, not minutes.

<$1

10K cNFT TICKETS

Compressed NFTs make mass ticketing affordable. And make big ideas easy.

∞

COMPOSABILITY

Blinks, Realms, SPL tokens.

> *"My crew wants to throw a warehouse party in Cologne. I create a RaveFund, share the Blink in our Telegram. 47 people chip in. We vote on the headliner. Every payment shows up on-chain. I get my NFT ticket. If we don't hit target? Auto-refund, no drama."*
